Title:	SECURE PRINTING SYSTEM AND METHOD		

DECLARATION OF PRIOR INVENTION UNDER 37 C.F.R. § 1.131

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted to establish prior invention of the subject matter of the present patent application. The person making this Declaration is the inventor, Von Hansen.

Accompanying this Declaration are Exhibits A through M to establish conception of the subject matter of the present patent application prior to the effective reference date of July 12, 2001 of Strobel et al U.S. Patent Publication 2003/0014651 coupled with due diligence from prior to the effective reference date to the filing date of November 29, 2001 of the present patent application (i.e., constructive reduction to practice).

Exhibit A (3 pages) includes an HP Invention Disclosure submitted by the inventor, and received by the HP Legal Department on May 26, 2000. This invention disclosure was assigned HP Patent Disclosure No. 10004290-1 and describes the subject matter of the present patent application. For example, the "Descriptive Title of Invention" describes "Secure Printing using PalmPilot + JVM" (Exhibit A, page 1). The "Description of the Invention" section (Exhibit A, page 3) of the HP Invention Disclosure describes the claimed subject matter of the present application.

Accordingly, Exhibit A establishes conception of the subject matter of the present patent application prior to the effective reference date of July 12, 2001 of the Strobel et al U.S. Patent Publication 2003/0014651.

Exhibit B (2 pages and Attachments 1-3) includes a Declaration of patent attorneys Steven E. Dicke and Paul S. Grunzweig of Dicke, Billig, & Czaja (the patent attorneys assigned to prepare the present patent application), which details the activities of Paul S.

Grunzweig and Steven E. Dicke from at least October 2000 through at least May 2001 directed toward the preparation and filing of the present patent application.

Exhibit C (2 pages) includes a facsimile cover page (with confirmation report) dated October 25, 2000 from Christine Docherty (Legal Assistant to Steven E. Dicke) to Von Hansen regarding a copy of HP Invention Disclosure 10004290-1 (H302.150.101).

Exhibit D (2 pages) includes a facsimile cover page (with confirmation report) dated January 22, 2001 from Paul S. Grunzweig to Von Hansen regarding HP Invention Disclosure for 10004290-1 (H302.150.101).

Exhibit E (1 page) includes a facsimile cover page dated January 27, 2001 from Lisa Johnson (for Paul Grunzweig) to Von Hansen regarding drawings for a draft patent application for HP Invention Disclosure 10004290-1 (H302.150.101).

Exhibit F (2 pages) includes a facsimile cover page (with confirmation report) dated February 22, 2001 from Paul Grunzweig to Von Hansen regarding a draft patent application on HP Invention Disclosure 10004290-1 (H302.150.101).

Exhibit G (2 pages) includes a facsimile cover page (with confirmation) dated April 2, 2001 from Steven E. Dicke to HP Attorney Steven Ormiston forwarding drawings for the patent application on HP Invention Disclosure 10004290-1 (H302.150.101).

Exhibit H (1 page) includes an electronic mail communication dated April 16, 2001 from HP Outsourcing Attorney Steven Ormiston to Steven E. Dicke regarding the draft patent application, which was a reply communication to an electronic mail communication dated April 10, 2001 from Steven E. Dicke to Steven Ormiston regarding the draft patent application.

Exhibit I (1 page) includes an electronic mail communication dated May 9, 2001 from Jolene Neby to Paul S. Grunzweig regarding the status of the draft patent application for file H302.150.101 and the requested corrections by HP Attorney Steven Ormiston.

Exhibit J (1 page) includes an electronic mail communication dated May 15, 2001 from Paul S. Grunzweig to Jolene Neby regarding the revised patent application for file H302.150.101.

Exhibit K (2 pages) includes a facsimile cover page (with confirmation report) dated May 16, 2001 from Paul Grunzweig to Von Hansen regarding drawings for the draft patent application on HP Invention Disclosure 10004290-1 (H302.150.101).

Amendment and Response under 37 C.F.R. 1.116

Applicant: Von L. Hansen

Serial No.: 09/995,777

Filed: November 29, 2001

Docket No.: 10004290-1 (H302.150.101)

Title: SECURE PRINTING SYSTEM AND METHOD

Exhibit L (1 page) includes a facsimile cover page dated May 25, 2001 from Paul Grunzweig to Von Hansen regarding drawings for the draft patent application on HP Invention Disclosure 10004290-1 (H302.150.101).

Exhibit M (1 page) includes a Letter sent on November 13, 2001 by patent attorney Steven E. Dicke to Steven Ormiston of Hewlett-Packard regarding a patent application regarding HP Invention Disclosure 10004290-1 (H302.150.101) that is suitable for filing by HP. This Letter was accompanied by a hard copy of the patent application, as well as numerous other documents in support of the patent application.

Accordingly, Exhibits B-M establish diligence from prior to the effective reference date of July 12, 2001 of Strobel et al U.S. Patent Publication 2003/0014651 to the filing date of the present patent application.

From Exhibits A through M it can be seen that the subject matter of the present patent application was conceived prior to the effective reference date of July 12, 2001 of Strobel et al U.S. Patent Publication 2003/0014651 and was coupled with due diligence from prior to the effective reference date to the filing date of the present patent application (i.e., constructive reduction to practice).

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Description of Invention: Please preserve all records of the invention and attach additional pages for the following. Each additional page should be signed and dated by the inventor(s) and witness(es).

A. Description of the construction and operation of the invention (include appropriate schematic, block, & timing diagrams; drawings; samples; graphs; flowcharts; computer listings; test results; etc.)

"Secure Print" (enable actual printing of secure/private print job when you are near printer and desire print). Use a palm pilot with FIR to hold "security key" that will be used to enable the printer when you are near printer. palm pilot will send JVM Applet by FIR to printer with secure key and server address of print job.

B. Advantages of the invention over what has been done before.

private printing - you are near printer when print job comes out

example: Print job to Kinko - Drive down to get output. Printer waits for you to send by Palm Pilot FIR a secure key before printing your personal job.

C. Problems solved by the invention.

~~not~~ others looking at your personal/private job.

D. Prior solutions and their disadvantages (if available, attach copies of product literature, technical articles, patents, etc.).

punch in a key at printer keyboard - need special operator panel.

DECLARATION OF STEVEN E. DICKE AND PAUL S. GRUNZWEIG

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir/Madam:

This Declaration is submitted in support of the Declaration of Prior Invention Under 37 C.F.R. 1.131 submitted to establish conception of the subject matter of the present patent application prior to the effective reference date of July 12, 2001 of Strobel et al U.S. Patent Publication 2003/0014651 coupled with due diligence prior to the effective reference date to the filing date of November 29, 2001 of the present patent application (i.e., constructive reduction to practice).

The persons making this Declaration are patent attorneys Steven E. Dicke and Paul S. Grunzweig of Dicke, Billig & Czaja. We state as follows:

On or after August 29, 2000, Steven E. Dicke received a letter from Hewlett-Packard Company regarding preparation of a patent application for HP Invention Disclosure No. 10004290-1.

On September 28, 2000, Steven E. Dicke prepared and sent a letter to patent attorney Paul S. Grunzweig requesting that he prepare a patent application based on this disclosure identified as file H302.150.101 (see Attachment 2).

— During the period between approximately August 2000 and November 2001, we had a reasonable backlog of unrelated cases on which we worked reasonably hard and carried out expeditiously in cooperation with HP Attorney Steve Ormiston. Our practice was to attend to the preparation of patent applications having bar dates first and attend to the preparation of the remaining patent applications (including the present patent application) generally in the chronological order in which they were received.

Title: SECURE PRINTING SYSTEM AND METHOD

Attachment 3 is a copy of billing invoice detailing activities of patent attorneys Paul S. Grunzweig and Steven E. Dicke for preparation of the present patent application, covering a time period extending throughout February 2001. During at least February 2001, Paul S. Grunzweig reviewed the information from and discussed the invention disclosure with the inventor Von Hansen and drafted and prepared the present patent application (see Attachment 3).

As a person signing below, I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Inventor(s): Von Hansen
HP Required Receipt Date: February 15, 2001

Dear Steve:

We would like you to provide us with a quote of the cost for your firm to prepare a US patent application based on the HP invention disclosure identified above, a copy of which is enclosed. Your quote should be based on preparing and supplying us with the completed application, formal drawings, and a disk containing the electronic file for the application all to be received by the HP required receipt date stated above.

Your quote should be submitted on the enclosed Request for Quote And Engagement Letter Agreement. If your quote is accepted, we will return a fully executed copy of the Agreement to you for your records. **The Agreement will not be binding on you or on HP until signed by HP's authorized representative.**

If this Agreement is not signed and returned to HP, any bills submitted by you cannot be paid.

Thank you for your assistance in reviewing the invention disclosure. If your review indicates a possible conflict for your firm, you should advise us within one week of receipt of this letter.

Sincerely yours,

Steve Dicke - RE: HP10004290-1

Subject: RE: HP10004290-1 302.150.101

Steve,

1. Omit the "select proximity" limitation from some of the method claims -- it appears in all of the method claims -- unless this is really a necessary limitation for all the method claims (which would mean select proximity is the only point of novelty).
2. In any event of item no. 1, recharacterize "select proximity" in some of the method claims. For example, you might recite an "authorized" mobile device or wireless transmission. Be creative. Add some new claims if you think they are warranted.
3. Add a set of device claims directed to just the mobile device programmed or configured to
4. Add a few computer product claims that mimic some of the method claims.

I don't need to see the case again. Run the changes by the inventors just to make sure they are comfortable with the new claims. Thanks for your help on this. Steve Ormiston.

Hi Paul,

Could you let me know where we are at with this file? Last I could tell corrections were requested to be done by Steve Ormiston. Has it been approved by HP yet? The inventors? Is it ready to go? Let me know when you can.
